## SIMPLICITY, IS THE KEYNOTE OF ALL TRUE ELEGANCE

Ultra Narrow Frames  
35% Slimmer Than Ever

**Alu+ 80s**

## Modern Minimalism Series

Thermal Break Aluminum  
Tilt Turn & Casement Windows

Modern minimalism series windows come with the best in sightlines, excellent weather performance, futuristic aesthetic, and color options. With significant improvements over early generations of windows. The products you buy today no longer suffer from poor energy efficiency, limited color choices, or high maintenance subframes. Advances in profile technology, construction, hardware, and glass mean we can provide a better solution for virtually any kind of customer's requirement.

Where the outlook of windows & doors in the openings, mullion profiles appear as a slimmer line on the large size of the glazed openings. This is a call for the complete revision of conventional hardware designs and concepts and finding a proper solution for the new architectural trends in the market.

An exponential increase in the need for the retail section of building systems that are visual as well as minimalist in style. Currently, numerous popular projects are trying to find such systems as a default offering in their tasks.

## Ultra-Narrow Frame Windows ///

- No Pressure Line Design Inside and Outside
